

5 AI Prompts for Simplifying Course Content

Use these prompts when you have a course map or video script that you want to simplify. Replace [CONTENT] with your actual course map, outline, or script.

1. **Core Concept Extraction:** "I have the following course outline/script: [CONTENT]. Please identify the 3-5 most crucial concepts and rewrite the outline focusing only on these core ideas. Explain your reasoning for choosing these concepts."
2. **Beginner-Friendly Rewrite:** "Here's my current course material: [CONTENT]. Please rewrite this for absolute beginners, using simpler language, more basic concepts, and concrete examples. Aim to make it understandable to someone with no prior knowledge of the subject."
3. **Streamline and Condense:** "I have this course script: [CONTENT]. Please condense this into a version that's 50% shorter, focusing on the most impactful information. Highlight any parts you've removed and briefly explain why they were less essential."
4. **Action-Oriented Restructuring:** "Here's my course outline: [CONTENT]. Please restructure this into a step-by-step, action-oriented format. Each main point should be something the learner can do or apply immediately. Add brief explanations of why each action is important."
5. **Analogy and Metaphor Enhancement:** "This is my current explanation of a complex topic: [CONTENT]. Please rewrite this using simple analogies or metaphors to make the concept more relatable and easier to understand. Explain your choice of analogies."
